## SUMMARY

Creative Frontend Developer with a strong foundation in HTML, CSS, and JavaScript, and hands-on experience with modern library such as React. Dedicated to crafting intuitive, responsive user interfaces and continuously learning new technologies. A quick adopter of innovative design principles, I thrive in collaborative, agile environments to deliver outstanding user experiences.

---

## WORK EXPERIENCE

### Frontend Developer , Codealpha

Sept 2024 - Oct 2024

- During the internship, you'll tackle real-world projects, replicating the challenges faced by frontend developers.
- Each project will challenge you uniquely, enhancing your problem-solving skills as you conquer them.

### Frontend Developer , Codsoft

Nov 2024 - Jan 2025

- Acquired practical experience in building responsive web applications utilizing advanced front-end frameworks and tools.
- Developed expertise in integrating RESTful APIs to deliver dynamic content and enhance application functionality.

---

## PERSONAL PROJECTS

### Personal Portfolio

- Crafted a dynamic animated personal portfolio leveraging cutting-edge frontend technologies.
- Designed a responsive interface centered on user experience and optimized for cross-device functionality.

### Bike Image Gallery

- Designed and developed an interactive and responsive animated Bike image gallery using modern front-end technologies.
- Implemented smooth animations and transitions to enhance user experience.

---
